HOSES PVC PRESSURE

EXITFLEX® FRAS Mining Hose
Air/Water Hose

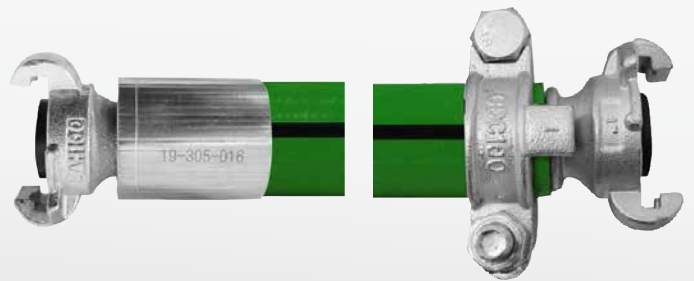

APPLICATION:

The EXITFLEX® FRAS Mining Hose made from a lightweight, highly abrasion resistant, high technology thermoplastic polymer which was developed especially for use in the mining industry. EXITFLEX® FRAS conforms to AS 2660 and AS/NZS 2554 and is suitable for the most arduous mining and industrial applications. The product is flame resistant and anti-static.

REINFORCEMENT:

Textile braiding/kevlar 500 psi.
INNER TUBE: Black PVC.
COVER: Green ribbed, black stripe PVC.*
BRANDING: Black inkjet.
TEMPERATURE: -5°C to +60°C
STANDARDS: AS 2660 & AS/NZS 2554 CLASS A

* Note: Under cover section. Standard cover is yellow black stripe. green, red, blue available on request and subject to M.O.Q.

ADVANTAGES:

- > FRAS (Fire resistant, anti-static) rated.
- > Highly abrasive resistant cover.
- > Used extensively throughout underground coal mines.
